DISEASE
DAY**

**MORE THAN
YOU CAN IMAGINE**

**FEB 28
2025**

**Marwa Sadeek from the UK,
living with Homozygous Familial
Hypercholesterolaemia (HoFH).**

*More Than You Can Imagine:
I am more than a diagnosis.
HoFH may run through my blood,
but it doesn't define me. I define it.*

**#RARE
DISEASE
DAY**

MORE THAN YOU CAN IMAGINE

**FEB 28
2025**

More Than You Can Imagine: I am more than a diagnosis. HoFH may run through my blood, but it doesn't define me. My journey is one of strength, resilience, and boundless potential. Yes, I have HoFH. But I am not fragile, I am powerful. My condition isn't a limitation; it's a superpower. It has taught me to fight harder, dream bigger, and break barriers others said couldn't be broken. Where some see obstacles, I see challenges to conquer. HoFH isn't a weakness; it's my strength. It fuels my drive to shatter glass ceilings and prove that I can achieve more than anyone imagined. I don't just survive, I thrive. My rare disease empowers me to live boldly and unapologetically, proving that nothing can hold me back. I am fighting not just for myself but for anyone who feels defined by a diagnosis. I want to show the world that we are not limited by challenges we rise above them.

I am more than a patient. I am a force. A creator. A dreamer. A mother. A daughter. A doer.

While HoFH is part of my story, I am the author of my journey. When others see my rare disease, I see strength, ambition, and purpose.

I am more than you can imagine. I am unstoppable. My diagnosis doesn't define me. I DEFINE IT.
